

REFLECTING ON THE PARK

Workshop 1

Participants: Aleksandra **Boci**
Altin **Boshnjaku**
Blerta **Kurteshi**
Filiza **Kastrati**
Marigona **Thaci**
Rezana **Rushiti**
Uratë **Ahmetaj**

Tutor: Sean **Martindale**

**ECO
WEEK**
PRISHTINA 2016

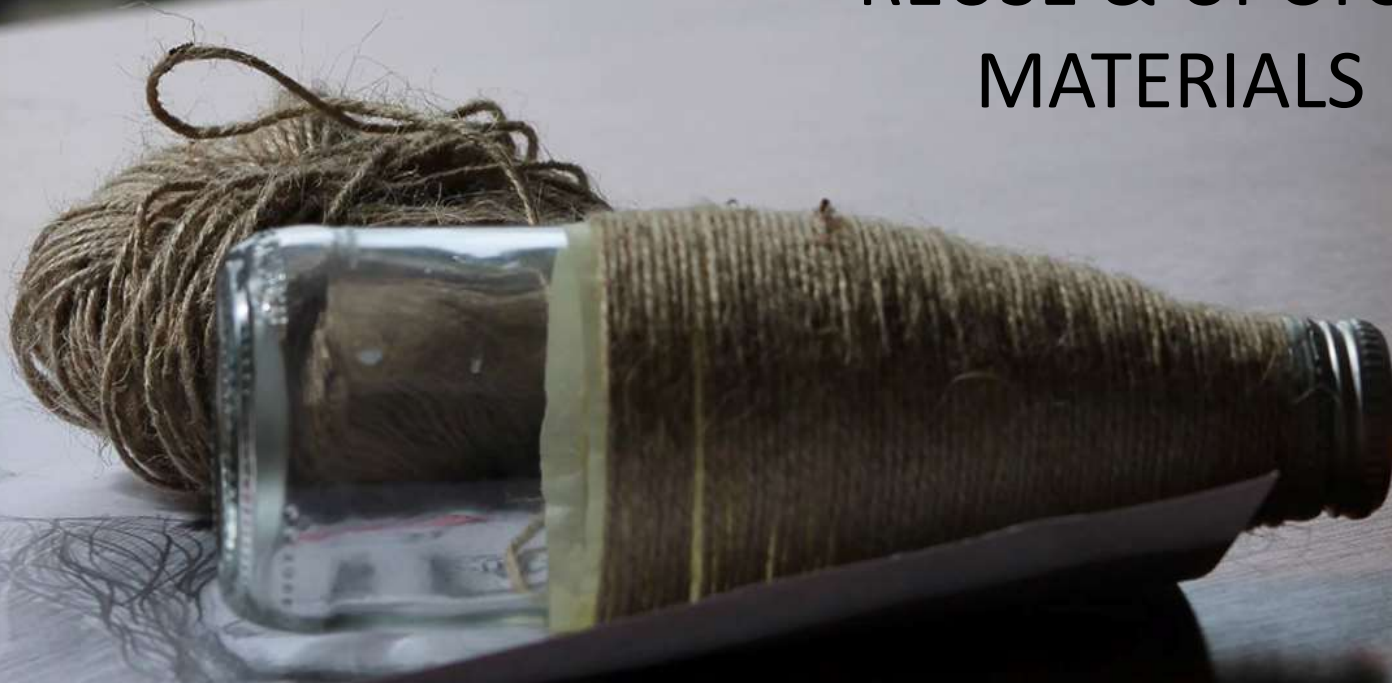

LOCATION FOR ECOWEEK

- The idea behind this workshop was for us to first **REFLECT** on Geremia National Park, and to then create interventions that would encourage others in the community that frequents Geremia to do the same. We wanted care for these shared green spaces and amenities.
- The target area of our workshop was Geremia National Park, in Prishtina. Our goal was to find spots and make interventions in an ecofriendly way by reusing and upcycling both materials and spaces/structures.

Geremia Park has a unique geographical position encompassing amazing natural habitats, and is very rich in flora and fauna that makes it a precious landscape.

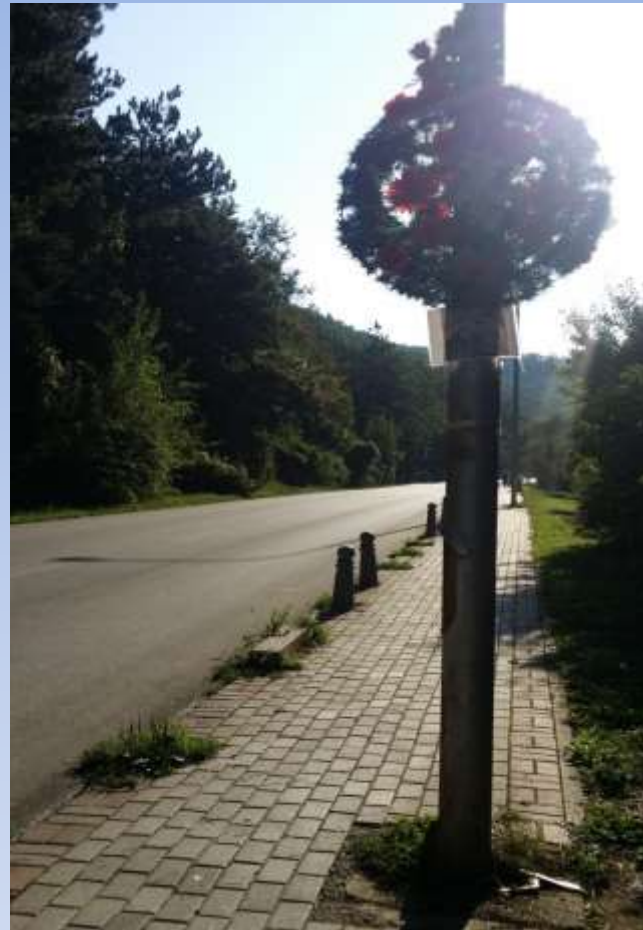

REUSE & UPCYCLE MATERIALS

PROCESS OF THINKING AND EXPLORING

- First, as a group we explored the park to establish potential spaces and focuses for our interventions.
- During the process we came up with many different ideas, but decided to concentrate on busy sites where we would have the most impact.

Tested interventions...
