TIMING 2010 BIENNALE PROJECTS

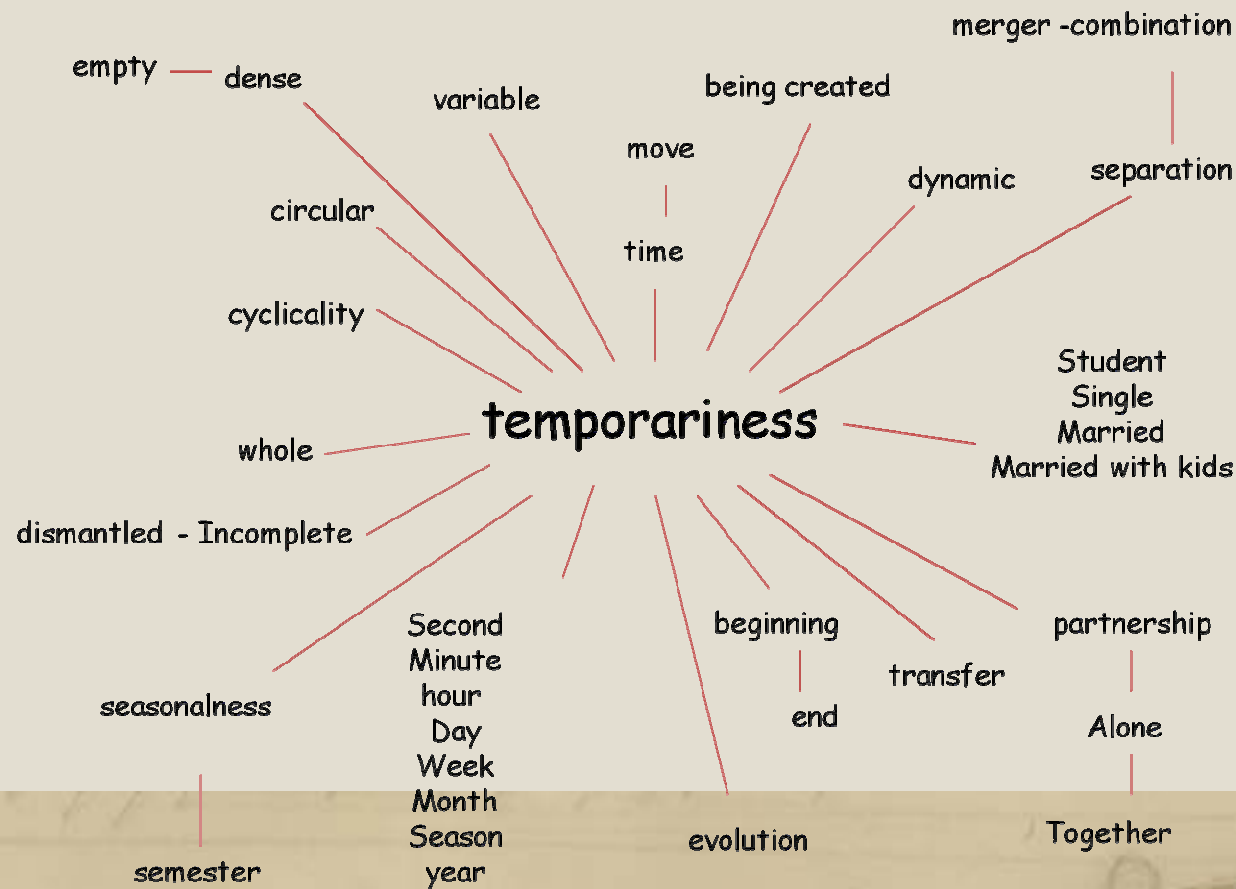

BAT-YAM BIENNALE OF LANDSCAPE URBANISM

The Biennale functions as a laboratory through which attitudes in and towards urban space are examined. The artists, architects, education and cultural professionals who participate in the Biennale along with the city's residents strive to expand the city's opportunities and improve quality of life. Through the Biennale, the city asks to strengthen the sense of personal civic responsibility towards shared space, and to propose change in the relationship between residents and the governing municipality.
