

"Using Computer Simulations for Fulfilling LEED Credits"

ECOWEEK Event in Collaboration with GBC Italia Lazio Chapter
September 27 2012

Michelle Farrell, LEED AP of IES Ltd, will discuss computer analysis for fulfilling LEED credits, specifically using the IES Virtual Environment software. This will be an informative introduction to how to use building simulation tools for fulfilling LEED credits. This course will cover the following:

- LEED Energy Analysis Credits - 90.1-2007 Analysis
- Daylighting credits
- Comfort credits
- Using an imported 3D model from an architect for analysis
- Improving the performance of your model

Attendee's will get a 2 month free trial for the VE software for use in their own companies, and will receive information about the exclusive discounts available to GBC Italia members through the IES/GBC Italia agreement.
