workshops

- W1** **Nasrin Mohiti Asli | Margherita Manfra**
ORIZZONTALE (Italy)
Municipal Park (Dimarxeiou)
 The workshop will focus on the construction of a DIY relational device to investigate possible interactions between city dwellers and urban common spaces, using recycled material.
- W2** **Jorge Martin | MARKO & PLACEMAKERS (UK)**
Leyla Mehtap Turanalp (Turkey)
Sea front at Sissi
 The workshop will discuss and reconsider the design project of the water-front and develop a process of public engagement for the new project to respect the natural environment, and accommodate human activity.
- W3** **Chris Doray | Pooya Khaliliaraghi**
CHRIS DORAY STUDIO (Canada)
Sea front at Agios Nikolaos
 The workshop will re-think and re-invent the meaning and role of patterns as spatial organizers and generative elements in the civic realm.
- W4** **Galia Hanoch Roe**
SOCIETY FOR PROTECTION OF NATURE (Israel)
Elias Messinas | ECOAMA | ECOWEEK (Greece)
3rd Elementary School
 The workshop will engage in design and hands-on construction with recycled materials in the school open spaces with the participation of parents and students from the school.
- W5** **Theodora Kyriafini | Fotini Lymeriadou | Nikos Protogeros**
EUZEN ARCHITECTURE (Greece)
5th Elementary School
 Re-thinking the public school: Design interventions in a school yard and sustainable retrofit for the school facades, using simulation and evaluation software.
- W6** **Panos Parthenios | Anna Karagianni**
Nikoletta Hatzopoulou | Nikos Bolanakis
TECHNICAL UNIVERSITY OF CRETE (Greece)
Sea front Soccer stadium & EOT
 Environmental Interiorities: The workshop will explore the interrelation between tourist behavior and environment, through urban mapping and new urban sustainable strategies based on CO2 concentration, sunlight, temperature, humidity and noise.
- W7** **Kristell VanHove | LIMNI (Greece)**
Limni site
 The workshop give the opportunity to get 'hands dirty' by working on real small scale structure using ecological and natural materials.
- W8** **Yiorgos Sakellaris**
NATURAL BUILDING OF CRETA (Greece)
Natural Building of Creta site
 The workshop will engage in real construction of small scale structure using ecological and natural materials.

ECOWEEK 2014 in Prishtina, Kosovo (ECOWEEK)

ECOWEEK 2011 in Athens, Greece (ECOWEEK)

WELCOME TO ECOWEEK IN AGIOS NIKOLAOS the first in Crete!

After the ECOWEEK Genius events organized with 92Y in New York in Athens, Thessaloniki, Jerusalem, Bucharest and Sarajevo, ECOWEEK in Agios Nikolaos opens a series of ECOWEEK events, to take place in Kosovo and Israel in September, in Romania in October, and in Thessaloniki, Greece in November.

We are very excited to be in Agio Nikolaos! This week we will explore sustainable ideas between Public Space, Tourism and One Planet Living principles, in partnership with the Municipality of Agios Nikolaos, the G & A Mamidakis Foundation, bluegr Hotels & Resorts, the Culture Athletic Organization of Agios Nikolaos and the Region of Crete, and in cooperation with Bioregional. Special thanks to the organizing team of the Municipality, bluegr and LoveGreece.com, and to our partners and communication partners for contributing to the success of ECOWEEK 2016 in Agios Nikolaos. Special thanks also to our speakers, workshop leaders, and event and activity partners for sharing their expertise in bringing to Agios Nikolaos a message of ecological practices and sustainable solutions.

Ecological practices are not new in Agios Nikolaos. Participating this week are local experts to share their knowledge, for example, in building with natural materials - earth, straw, and clay, in managing construction waste, and in creating composters that enable growing organic products in schools and hotels. ECOWEEK is an NGO created in 2005 with the mission to raise environmental awareness and to promote the principles of sustainability. ECOWEEK is active in 15 countries and has a network of members in 54 countries. Visit our website www.ecoweek.org

Thank you for joining us again this year! Enjoy this week!

Dr. Elias V. Messinas
Founding Chairman of ECOWEEK

ΚΑΛΩΣ ΗΡΘΑΤΕ ΣΤΗΝ ECOWEEK στον ΑΓΙΟ ΝΙΚΟΛΑΟ την πρώτη στην Κρήτη!

Μετά τις εκδηλώσεις της ECOWEEK Genius που οργάνωσε με το 92Y της Νέας Υόρκης στην Αθήνα, Θεσσαλονίκη, Ιεροσόλυμα, Βουκουρέστι και Σεράγεβο, η ECOWEEK στον Άγιο Νικόλαο ανοίγει μια σειρά από εκδηλώσεις που θα πραγματοποιηθούν στο Κόσοβο και το Ισραήλ το Σεπτέμβριο, στη Ρουμανία τον Οκτώβριο, και στη Θεσσαλονίκη το Νοέμβριο.

Είμαστε πολύ ενθουσιασμένοι που βρισκόμαστε στον Άγιο Νικόλαο! Αυτή τη εβδομάδα θα εξετάσουμε ιδέες για αειφορία μεταξύ Δημόσιου Χώρου, Τουρισμού και τις αρχές του One Planet Living, σε συνεργασία με το Δήμο Αγίου Νικολάου, το Ίδρυμα Γ & Α Μαιμάκη, τον όμιλο bluegr Hotels & Resorts, τον Πολιτιστικό Αθλητικό Οργανισμό του Δήμου Αγίου Νικολάου, και την Περιφέρεια Κρήτης και την συμμετοχή της Bioregional. Ευχαριστώ ιδιαίτερα την οργανωτική ομάδα του Δήμου, της bluegr και LoveGreece.com καθώς και τους συνεργάτες και χορηγούς επικοινωνίας για την συμβολή τους στην επιτυχία της ECOWEEK 2016 στον Άγιο Νικόλαο. Ιδιαίτερες ευχαριστίες στους ομιλητές, επιμελητές των εργαστηρίων, και τους συνεργάτες στις εκδηλώσεις και δραστηριότητες για την ανταλλαγή τεχνολογίας ώστε να φέρουμε στον Άγιο Νικόλαο ένα μήνυμα οικολογικών πρακτικών και βιώσιμων λύσεων.

Οι οικολογικές πρακτικές δεν είναι κάτι νέο για τον Άγιο Νικόλαο. Αυτή την εβδομάδα συμμετέχουν ειδικοί, για να μοιραστούν τις γνώσεις τους, για παράδειγμα, στην κατασκευή με φυσικά υλικά - χώμα, άχυρο και πηλό, στη διαχείριση αποβλήτων κατασκευών, καθώς και στη δημιουργία κομποστοποιητών που επιστρέφουν την καλλιέργεια βιολογικών προϊόντων σε σχολεία και ξενοδοχεία.

Η αστική μη-κερδοσκοπική εταιρεία ECOWEEK δημιουργήθηκε το 2005 με σκοπό την περιβαλλοντική ενημέρωση και ευαισθητοποίηση και την προώθηση των αρχών της αειφορίας. Η ECOWEEK δραστηριοποιείται σε 15 χώρες και έχει ένα δίκτυο μελών σε 54 χώρες. Επισκεφθείτε την ιστοσελίδα μας www.ecoweek.org

Σας ευχαριστούμε για τη συμμετοχή σας φέτος! Απολαύστε αυτή την εβδομάδα!

Δρ. Ηλίας Β. Μεσσίνας
Ιδρυτής και Πρόεδρος της ECOWEEK

speakers

Benjamin Gill BIOREGIONAL (UK)
One Planet Communities International Technical Manager at Bioregional, Ben is a Chartered Environmentalist with IEMA. Based in Greece, Ben currently manages Bioregional's involvement in One Planet Communities in France, Luxembourg, Tanzania and Portugal. He provides technical support to the partners in first developing and then implementing sustainability strategies.

Chris Doray CHRIS DORAY STUDIO (Canada)
Established Chris Doray Studio in 2007 developing national and international collaborative work notably in Asia. Teaches architecture and design at Emily Carr University of Art + Design and in Europe. He is a Chartered Member of the Royal Institute of British Architects.

ORIZZONTALE (Italy)
Architecture collective based in Rome, working primarily in reactivation processes involving urban scrap. Activates collaborative "public acts" in the form of semi-permanent architecture or installations. Promoting do-it-yourself projects of common relational spaces, giving form to dismissed and unseen images of the city, experimenting on interactions between city dwellers and urban commons.

Galia Hanoch Roe SOCIETY FOR PROTECTION OF NATURE (Israel)
Landscape architect, specializing in participatory planning of public spaces. As director of the Tel -Aviv Municipal Area Community of the SPNI, Galia is leading an array of activities in the realm of nature preservation, community and sustainability, community gardens and residents' forums.

Jorge Martin MARKO & PLACEMAKERS (UK)
Architect, urban designer and researcher working in the interdisciplinary realm of urban studies, political science, social sciences and design, keen on bridging disciplines and knowledge. Jorge's research focuses on the relationship between collective action and urban design, its implications on urban governance and the construction of social networks for public space.

EUZEN ARCHITECTURE (Greece)
International award-winning architecture firm founded by Theodora Kyriafini, Foteini Lympieriadou and Androniki Lympieriadou, aiming to create spaces that offer wellness, health and joy through bioclimatic, ecological and holistic design. EuZen Architecture integrates landscape, natural laws and human needs in a sustainable way, specializing in resort, spa, wellness centers, and in educational facilities.

Thanos Stasinopoulos ARCHITECT (Greece & Turkey)
Designer and built environment scholar, Thanos develops insights into the links between architecture and nature. Thanos has taught and lectured widely and has organized international workshops on green design. His research focuses on solar energy in architecture. Thanos practices research by design, interior & furniture design and visual arts.
