MODELS . . .

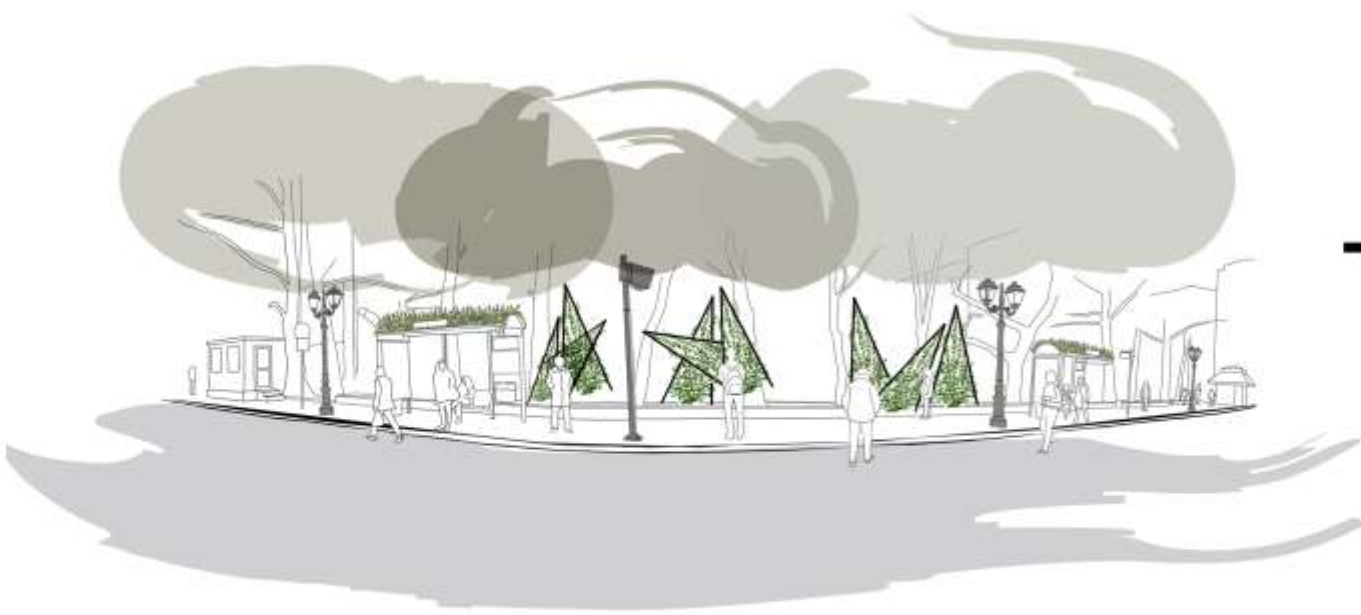

TRIGONALS SYSTEM

ECContinue - Ecological filters for Eleftherias Square, Thessaloniki

**ECOWEEK**  
2012 ... make change ... make change

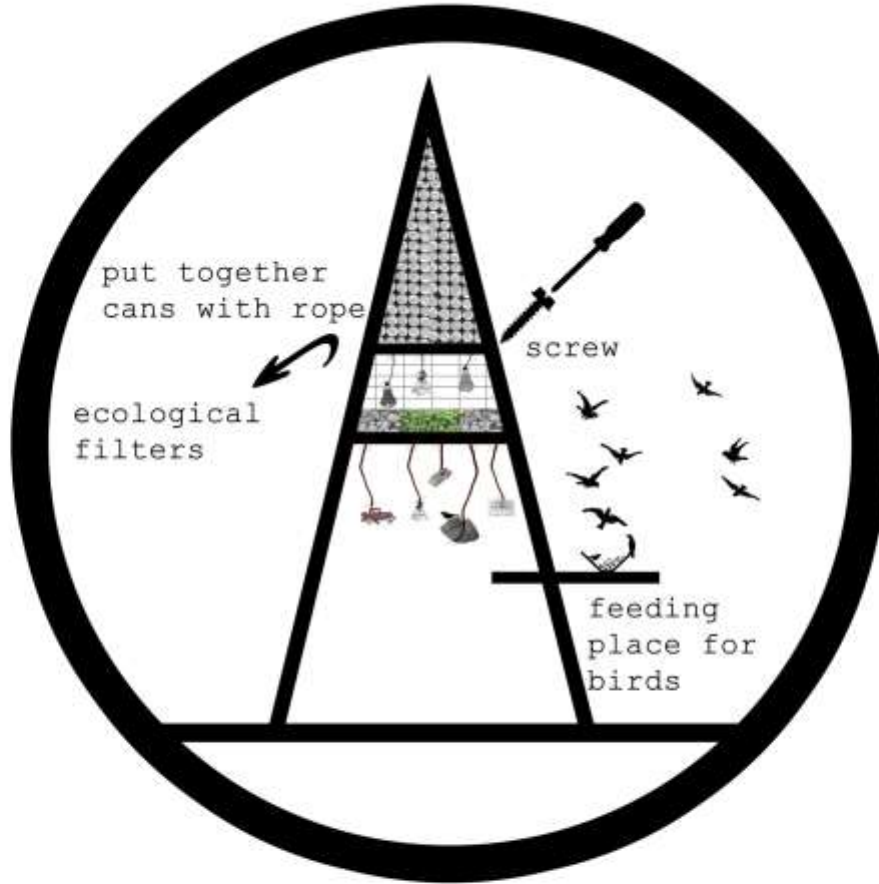

TRIGONALS SYSTEM  
materials

metal triangle

a piece of metal

put together with rope

broken light bulb

rope

metal corner

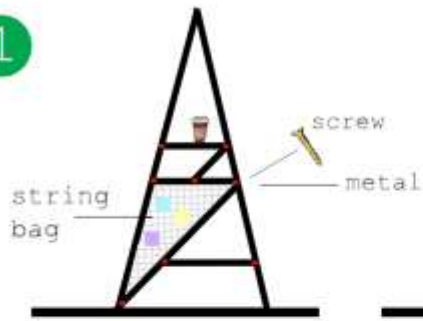

screw

broken toy cars

1

in front of the triangle you can put your notes

on the other side of the triangle you can put your coffee

2

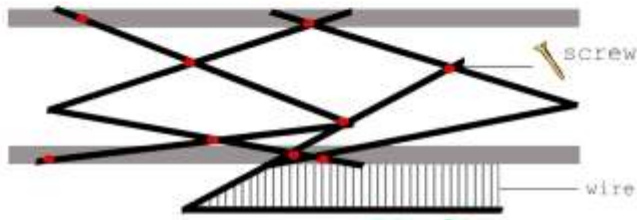

in the middle of two triangles you can throw your rubbish

3

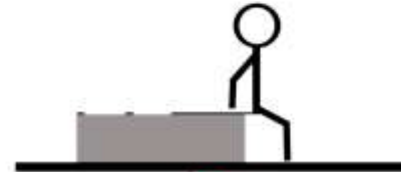

you can hang your jacket when you wait the bus. if you forget it, it can be an ecological filter.

4

when we put the triangles on the ground, we can form some sitting area

people can sit on this area

5

γεια σου!

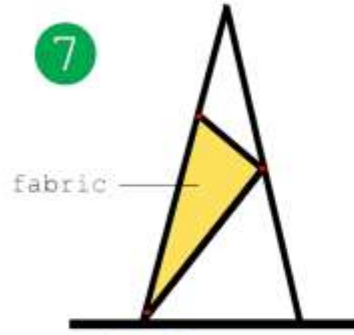

children can sit in the middle of the triangle

6

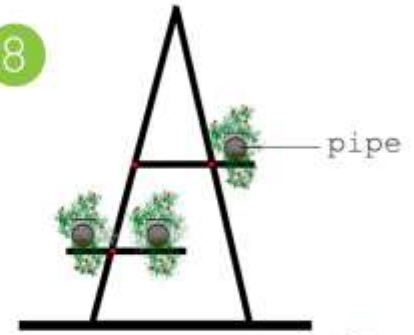

we can use the triangle like a sculpture

7

we can use fabric to close disturbing sights of car parking area

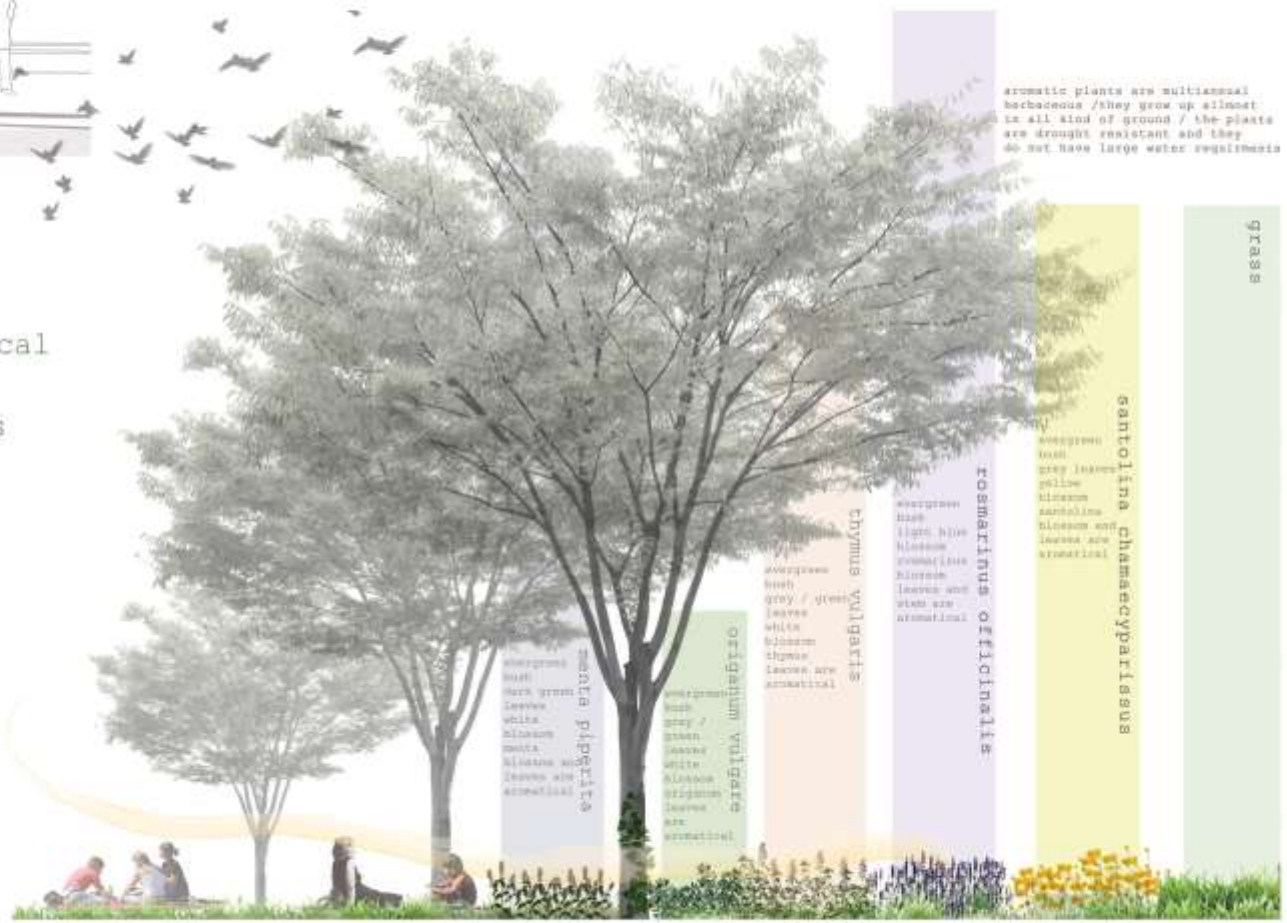

8

we can use pipes as a vase to make ecological filter

aromatic plants are multiannual herbaceous /they grow up almost in all kind of ground / the plants are drought resistant and they do not have large water requirements

grass

santolina chamaecyparissus

evergreen bush  
grey leaves  
yellow  
flowers  
santolina  
blossom and  
leaves are  
aromatic

rosmarinus officinalis

evergreen bush  
light blue  
flowers  
aromatic  
leaves and  
stem are  
aromatic

thymus vulgaris

evergreen bush  
grey / green  
leaves  
white  
flowers  
thyme  
leaves are  
aromatic

origanum vulgare

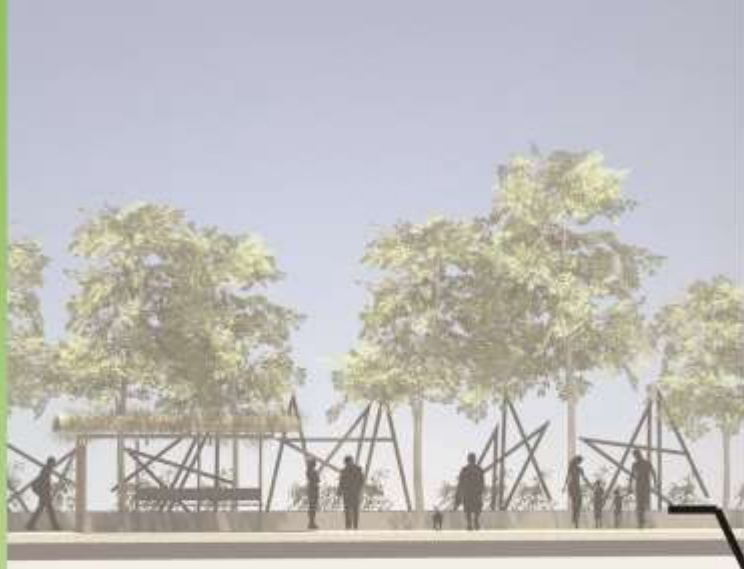

evergreen bush  
grey / green  
leaves  
white  
flowers  
origanum  
leaves are  
aromatic

sancta piperita

evergreen bush  
dark green  
leaves  
white  
flowers  
menta  
flowers and  
leaves are  
aromatic

Green Integration as optical olfactive filter  
Abacus of aromatic plants

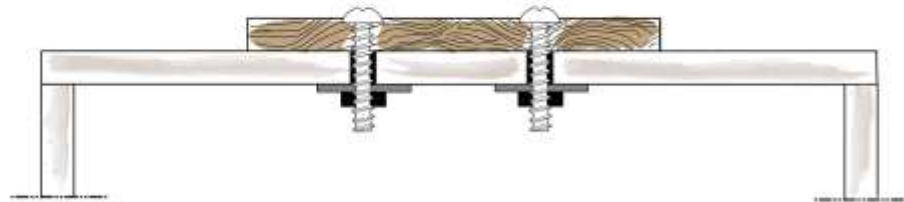

an optical border  
\_hides the stressful parking sight  
\_allows the see view  
\_creates an attractive sculpture to discover

\_a functional border  
waiting for the bus  
communication is enhanced  
\_announcements on the  
border\_
