Problems _ public opinion poll

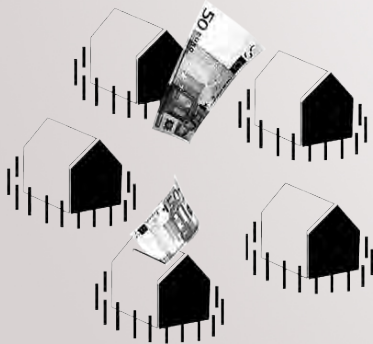

Problems

I do not know anyone here – During the work on the project we asked 28 people encountered in the area about who lives here. 6 people responded that they are in the area by accident and do not know anyone here. 22 people replied that they live here and also do not know anyone here.

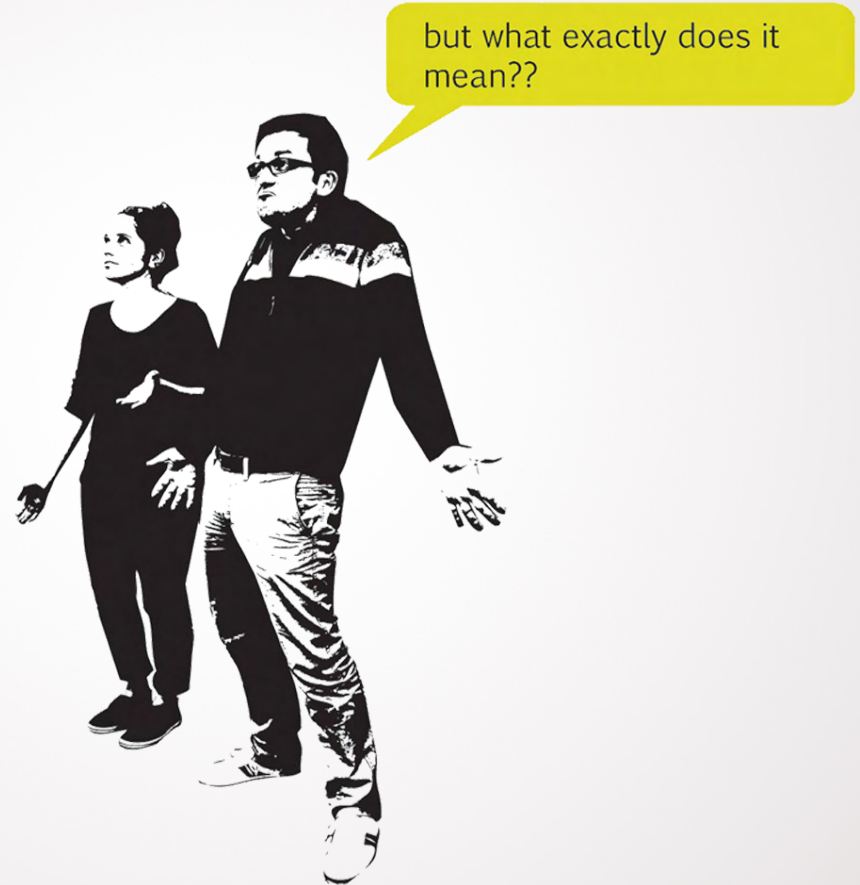

Separation - closing themselves in their own enclaves. Through this area there is not a place that would be friendly for the residents as a kind of an asylum, where they can relax from the daily intensive lifestyle-oriented career. There is a lack of a place that could even teach locals how to manage time.

Commercialization - the area is under constant pressure from the development market. Uncontrolled development threatens the identity of the place

Idea_function

Idea

whoa! bike service and
cooking school!

workshops and SPA!

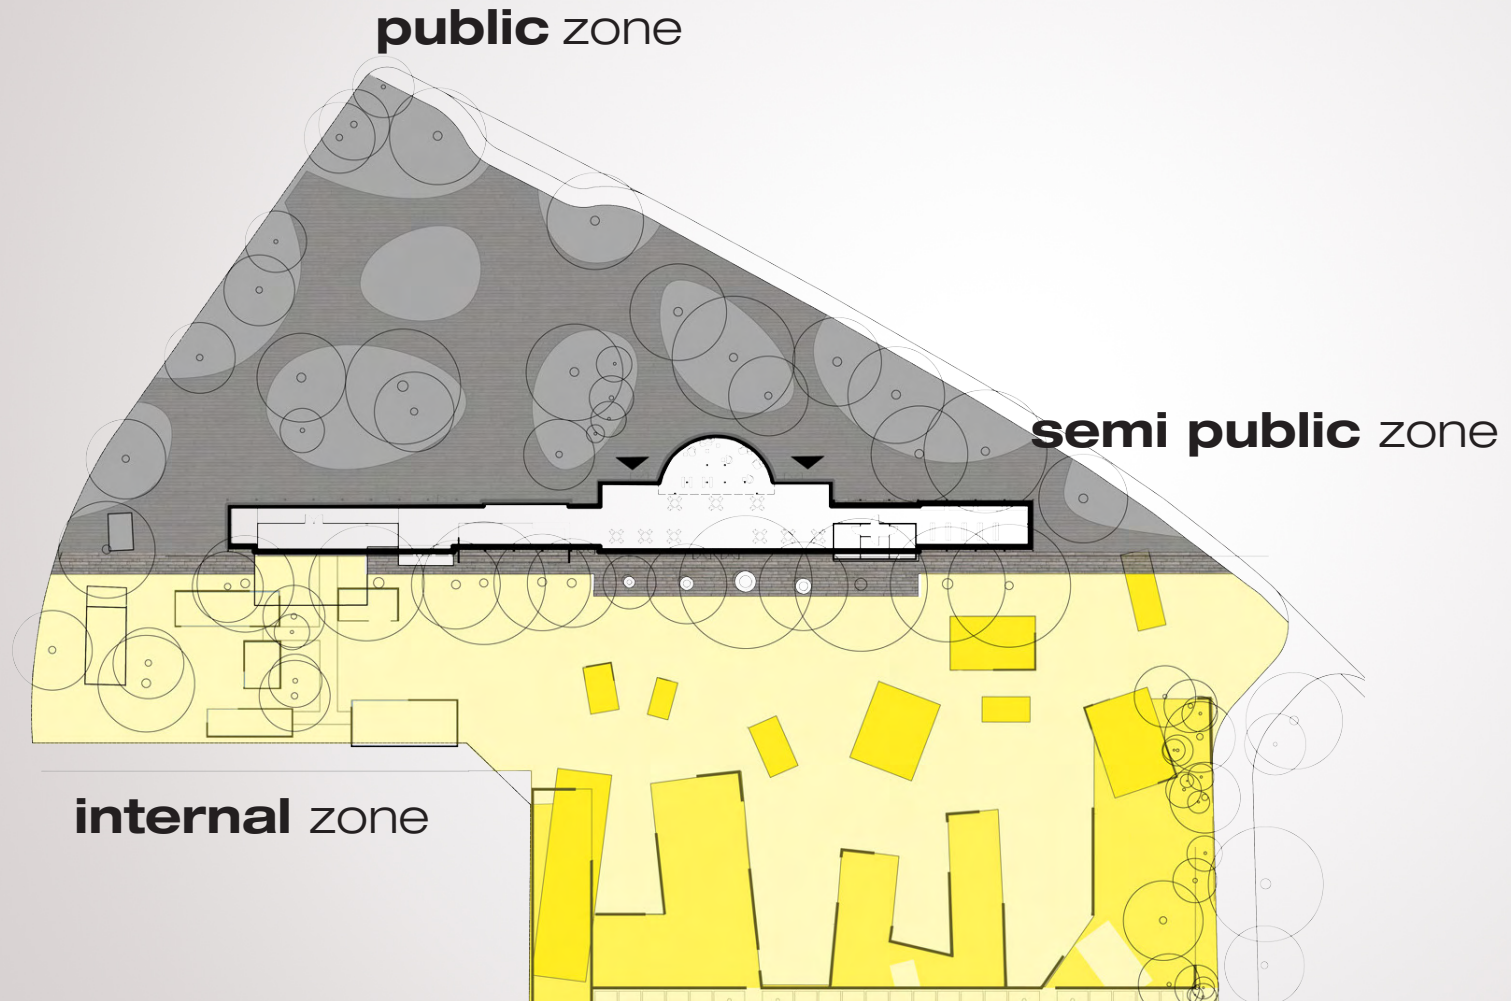

slow life! it is good for everyone!

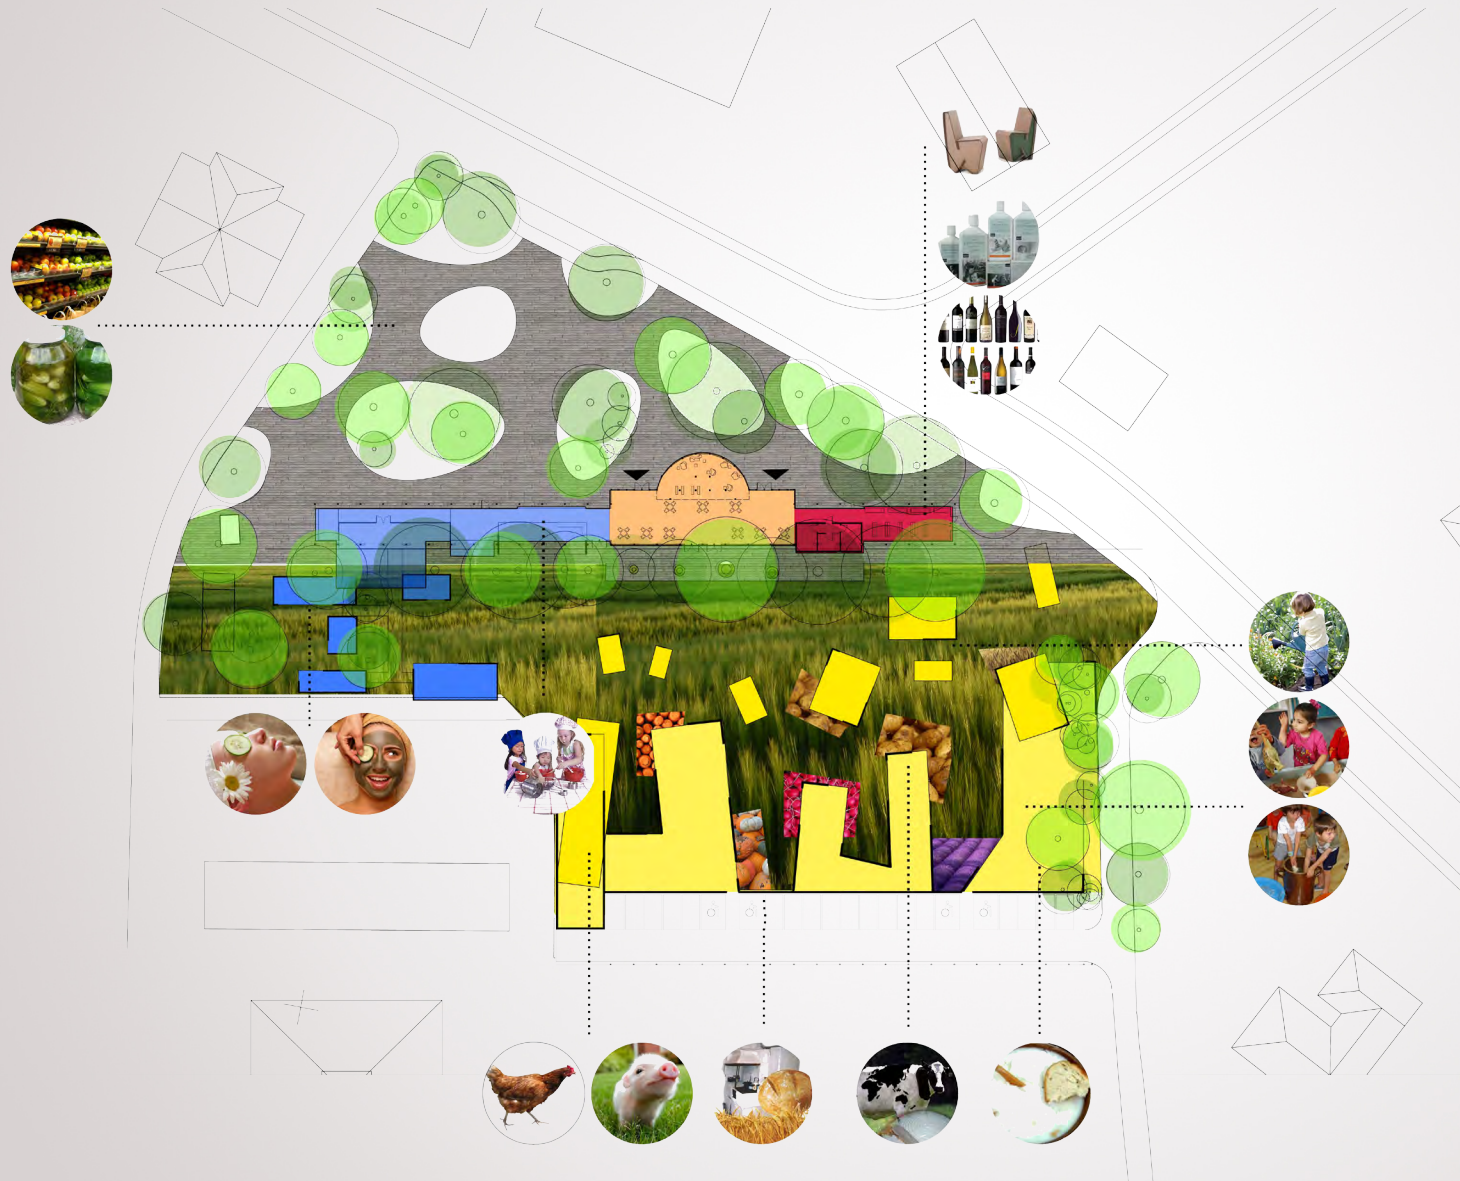

this sounds like an idea!

Idea_master plan

Program_local market

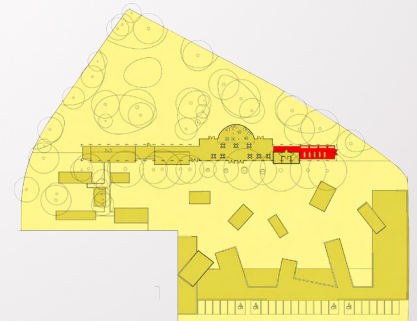

Local market - „Kleparz Zwierzyniecki” - here in contrast to the supermarket you can get fresh food and bargain with real peddlers.

Program_eco shop

Eco shop - This is where ecology, literally „looks from the shelves.“ To offer are organic cosmetics, organic foods and recycling-design, which is different everyday objects in harmony with nature.

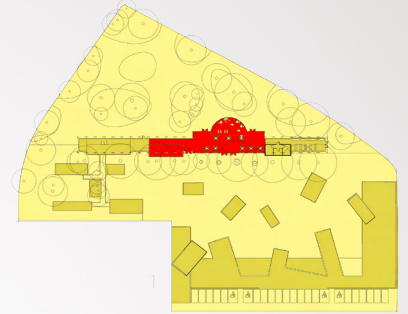

Program_organic restaurant + culinary workshop

Organic restaurant & culinary workshop - Located in the central part of the shooting range building, offers to its clients a wide range of dishes based on local recipes and products.

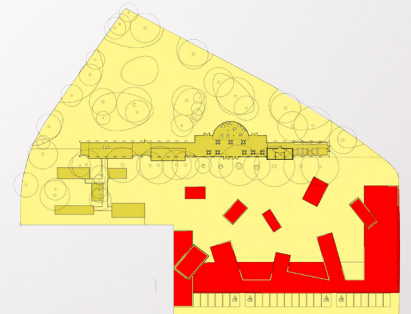

Can't you cook? It's never too late! Culinary workshop for children, youth and adults, in care of specialists of healthy nutrition.

Program_pavilions

- > pavilion of bread;
- > pavilion of coffee;
- > pavilion of herbs;
- > pavilion of spices;
- > pavilion of milk and cheese;
- > pavilion of farm animals;
- > pavilion of wine;
- > pavilion of handicraft;
- > and many many more !

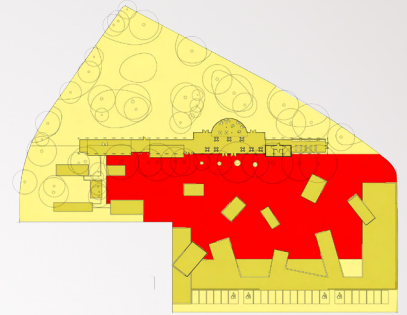

Program_mini farm

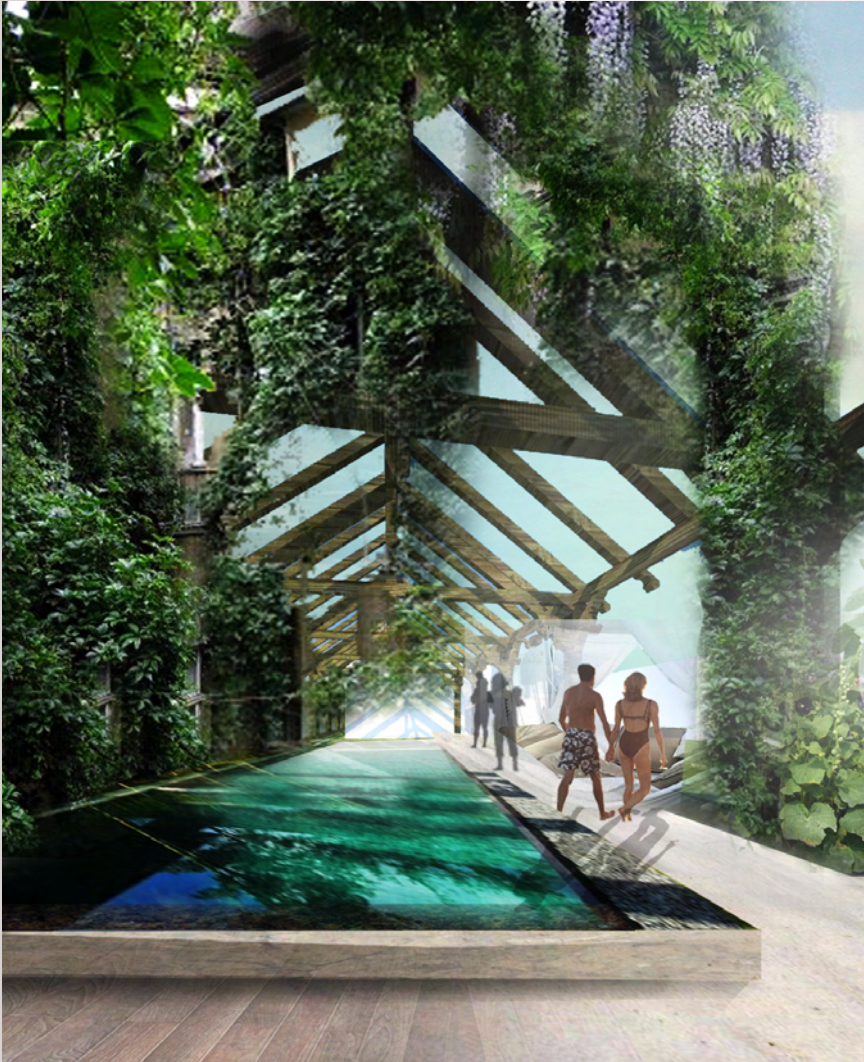

Mini farm - animals in SLOWPOINT allow children to see and touch the real sheep or pig.

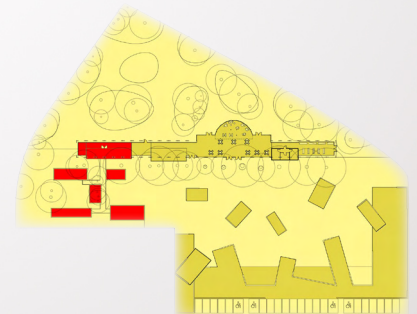

Eco-plants - keeping mini cultivation plots allows to show the kids how the plants grow. This is particularly important today when many children think that strawberries grow in Tesco.

Program_spa

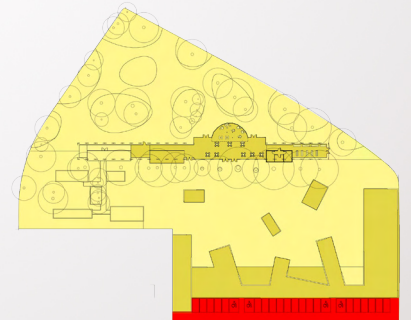

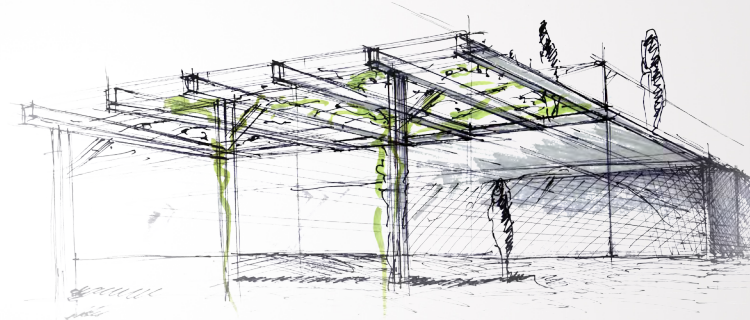

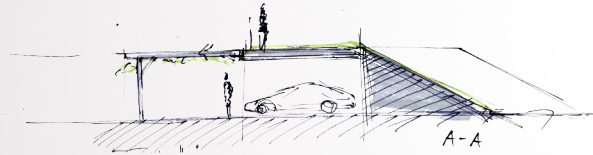

Spa - using eco cosmetics while taking care of yourself is also green !

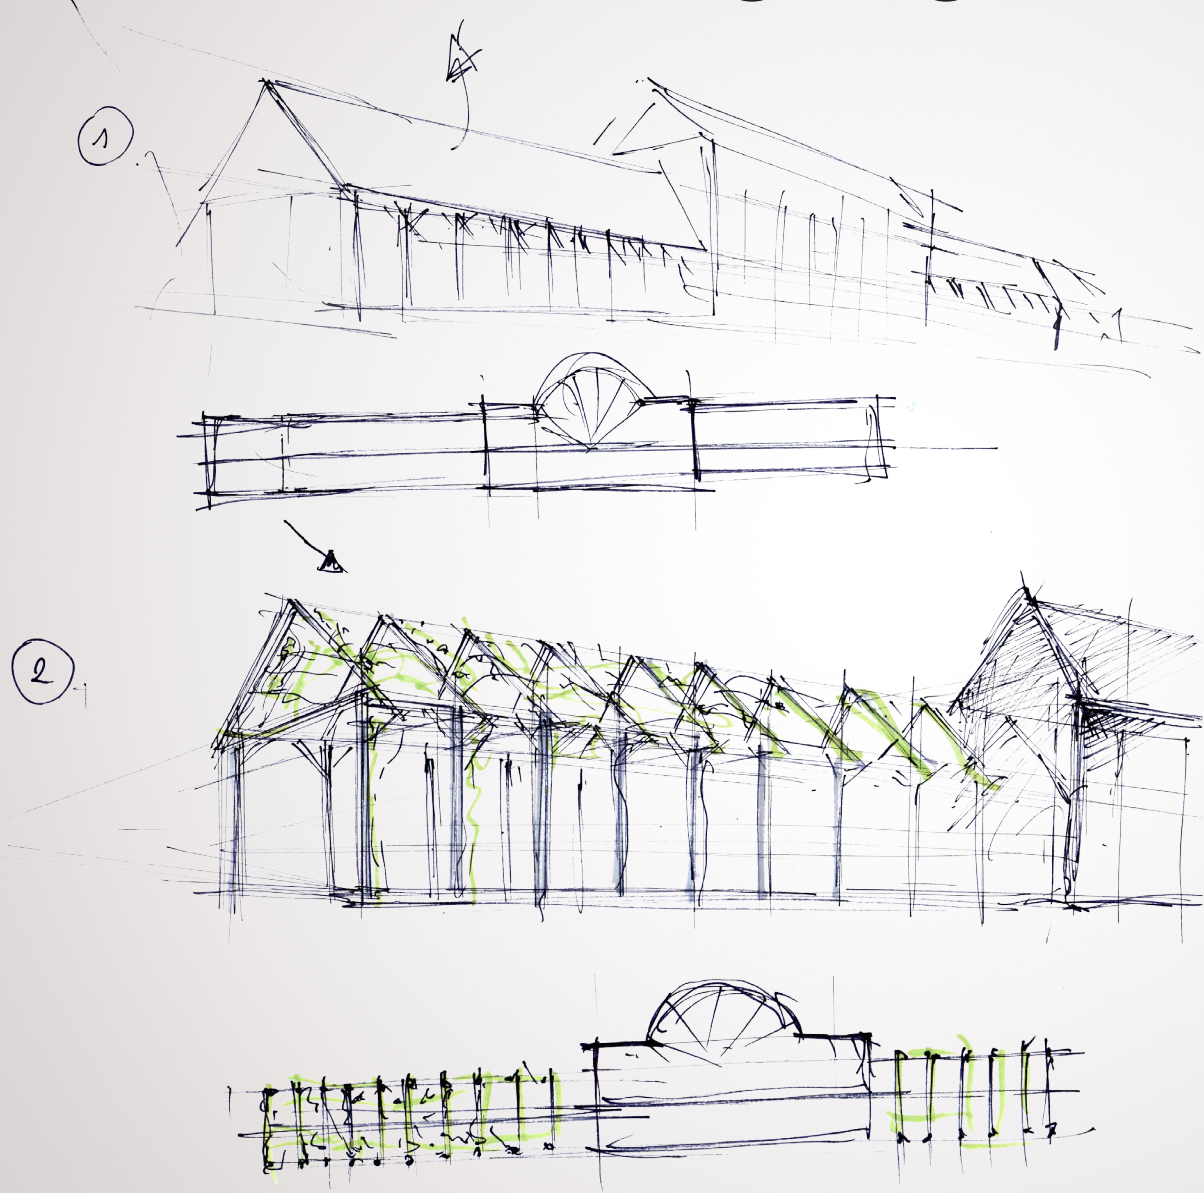

Program_car parks

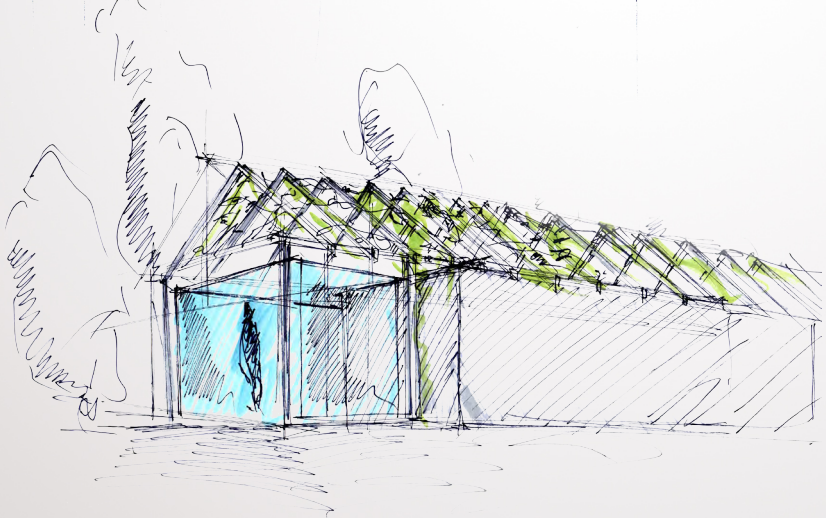

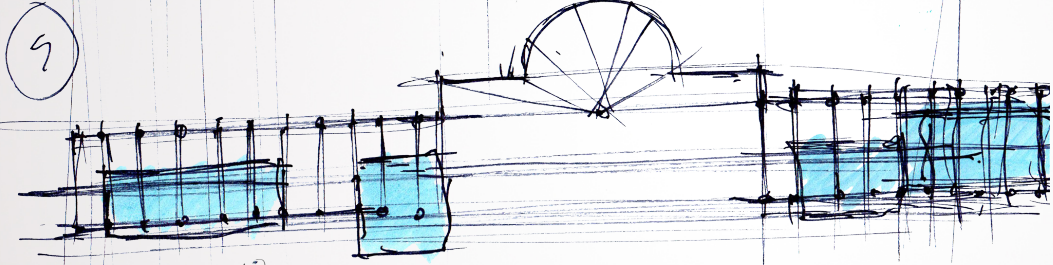

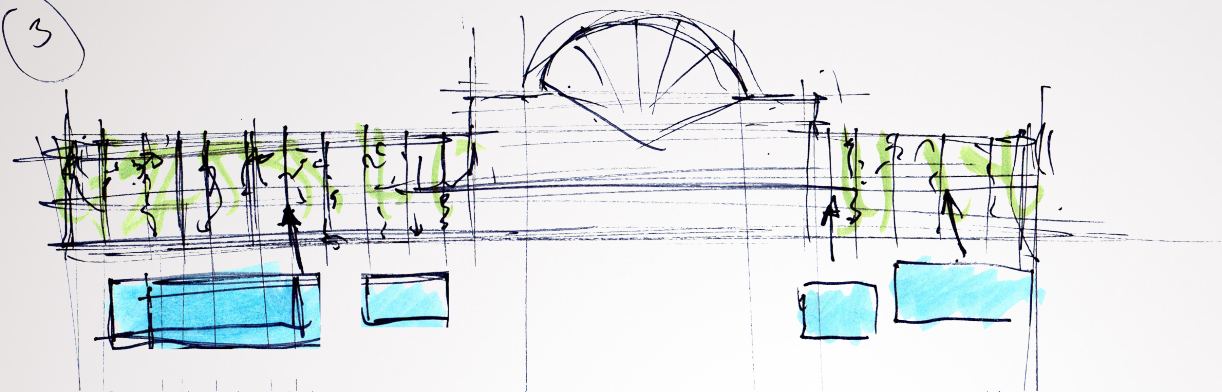

Hidden under the slope !
